

### Highlights

- In April 2018, Whitehorse's median rent for units in *buildings with 3 or more rental units* was \$950 and the vacancy rate was 3.4%.
- Compared with October 2017, the median rent in Whitehorse for units in *buildings with 3 or more rental units* remained the same at \$950, and the vacancy rate increased 0.6 percentage points from 2.8% to 3.4%.
- For *rental units in all types of buildings* in Whitehorse, the median rent was \$1,000 and the vacancy rate was 2.2%.

The Yukon Rent Survey is a Yukon Bureau of Statistics (YBS) survey that has historically been conducted in the third month of every quarter (March, June, September and December) in Whitehorse, Watson Lake, Haines Junction and Dawson City. Beginning in 2014, the survey is being conducted on a semi-annual basis in April and October. In addition to the change in frequency, the survey methodology has been updated and the survey universe has been expanded to cover all types of buildings with rental units (single detached houses, townhouses/row houses, duplexes, triplexes and fourplexes, condominiums, apartment buildings, store-top (commercial), mobile homes, cabins and garden suites). Subsidized or government-owned housing, and informal or illegal units remain excluded from the survey.

Despite the change in methodology, YBS will continue to generate median rent and vacancy rates for units in buildings with 3 or more rental units using comparable methodology to maintain the time series for historical comparisons. Pages 2 to 4 of this report include estimates based on the new methodology, while the analysis on the first page refers to buildings with 3 or more rental units. The graph below displays historical trends<sup>1</sup> of median rent and vacancy rates in Whitehorse.

For units in buildings with 3 or more rental units, the median rent in April 2018 (\$950) remained the same compared to a year earlier (April 2017) and remained the same compared to the previous reporting period (October 2017).

The vacancy rate remained almost stable (around 1.5%) between December 2010 and June 2013, and then started increasing to reach 4.7% in April 2014, (the highest rate since 2004) before showing an overall downward trend.

The vacancy rate in April 2018 (3.4%) was 1.4 percentage points higher than the rate in April 2017 (2.0%), and 0.6 percentage points higher compared to the vacancy rate in October 2017 (2.8%).

<sup>1</sup> Figures prior to 2012 are provided as indicators of trends and are not strictly comparable to subsequent figures.

**Note:** Historically, the regular quarterly rent survey included buildings with 4 or more rental units. In 2012, the survey universe was expanded to include buildings with 3 or more rental units. From 2011 onwards, an additional Expanded Rent Survey of buildings with 2 or more dwelling units was conducted in September of each year. These surveys continued until the end of 2013.
