

YUKON BUREAU OF STATISTICS

Business Survey 2006 Spring, 2006

Industry Which...

Has the Greatest Number of Employees.....	Retail Trade
Has Highest Percentage of Businesses Anticipating Growth	Wholesale Trade
Has Highest Percentage of Businesses Which Currently are Exporting	Wholesale Trade
Has Highest Percentage of Businesses With Gross Revenue Over \$500,000	Retail Trade

In the spring of 2006 the Yukon Bureau of Statistics conducted a business survey of approximately 2,700 businesses which compiled information about types, employees, revenue levels, etc. of Yukon businesses. Due to the large differences between home-based businesses and non-home-based businesses, a large section of this report separates the answers between the two types of businesses.

Because not all businesses answered each question, total numbers given in each category may not be consistent through all sections.

All commentary is based on non-suppressed numbers.
