

1 Income Tax Returns, Yukon, 2008

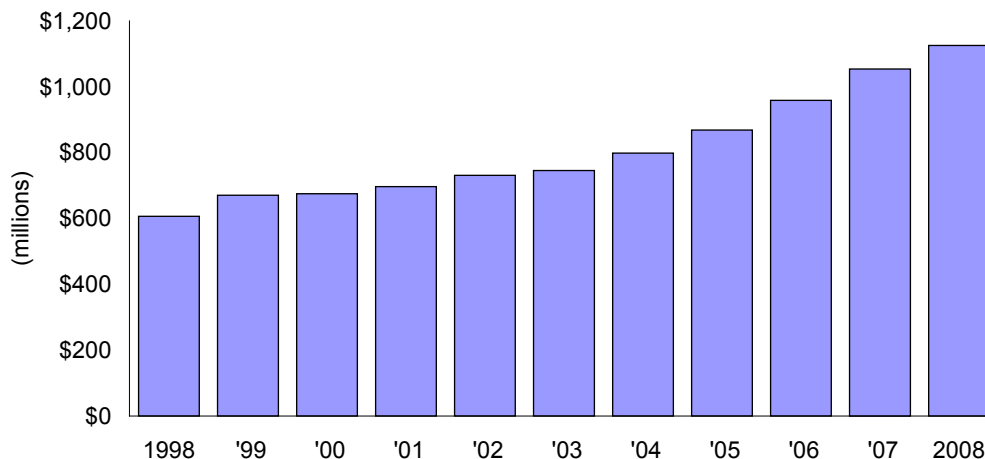

The data used in this publication is from Canada Revenue Agency's Final Statistics detailed profiles of Canadian taxfilers based on a stratified random sample of individual tax returns.

- Total number of income tax returns _____ 24,120
- Total income assessed _____ \$1,125,580,000
- Average total income _____ \$46,666
- Taxable income assessed _____ \$927,853,000
- Average taxable income _____ \$38,468

For the 2008 tax year, the total number of tax returns filed by Yukoners was 24,120, an increase of 810 taxfilers, or 3.5%, compared to one year earlier when the number of taxfilers was 23,310. The total income assessed in 2008 was \$1,125,580,000, the highest on record for the Yukon and the second consecutive year that total income assessed exceeded the 1 billion dollar mark.

For the 2007 tax year, Yukoners filed 23,310 tax returns. The total income assessed was \$1,053,747,000, and the total taxable income assessed was \$870,473,000. From 2007 to 2008, the total income assessed increased by \$71,833,000, or 6.8%. The taxable income assessed increased by \$57,380,000, or 6.6%. Taking a simple average, each tax return in 2008 had an average total income of \$46,666. In 2007, this figure was \$45,206. The average total income increased by \$1,460, or 3.2% from 2007 to 2008.

Total Income Assessed, All Taxfilers, Yukon, 1998 to 2008

2

All Taxfilers by Age Group, Yukon, 2006 to 2008

In the 2008 tax year, the 30-to-34-year-old age group had the highest **total** income assessed (\$177,672,000). The average income figure for this age group was \$49,629. This represents an increase of \$10,676, or 27.4%, compared to the 2007 average of \$38,953. In the 2008 tax year, the 30-to-34-year-old age group also had the highest **taxable** income assessed (\$146,314,000).

5

All Taxfilers by Major Source of Gross Income, Yukon, 2008

Taxfilers have been grouped by their major source of income. For instance, taxfilers who reported a gross income of \$45,000 made up of employment earnings of \$30,000, business earnings of \$10,000, and investment earnings of \$5,000 would be classified as employees because their major source of income (\$30,000) was from employment. Groupings include:

Farming: self-employed taxfilers who earn their major source of income from farming.

Self-employed Sales: taxfilers whose major source of earnings is commission income from self-employment.

Self-employed Professionals: self-employed taxfilers whose major source of income is professional fees (including accountants, doctors and surgeons, dentists, lawyers and notaries, engineers and architects, as well as entertainers, artists, etc.).

Investment: taxfilers whose major source of income is interest, taxable dividends from Canadian corporations, taxable capital gains, or other investment income.

Business Proprietorship/Partnership: taxfilers whose major source of income is business income.

Pension: taxfilers whose major source of income is pensions.

Employment: taxfilers employed by a business, institution, school, federal or provincial Crown corporation, or some form of government body.

Self-employment income (major source)	1,840	\$45,896
All other self-employment income	3,040	-\$4,654
Total self-employment income	4,870	\$41,242

"-" = suppressed data.

This table shows the distribution of all taxfilers with net self-employment income in 2008.

Of all taxfilers who declared self-employment, 37.8% had self-employed income as their major source of income in 2008.

The total number of returns with self-employment income in 2008 was 4,870. This is an increase of 420, or 9.4%, compared to 2007. Total amount of net self-employment income increased by \$1,756,000, or 4.4%, from \$39,486,000 in 2007 to \$41,242,000 in 2008.

The number of returns indicating self-employed professional income saw the largest increase, from 230 in 2007 to 490 in 2008, an increase of 260 returns, or 113.0%.

The largest self-employed income increase also occurred in professional income, rising from \$10,047,000 to \$15,168,000, an increase of \$5,121,000, or 51.0%.

"-" = suppressed data.

As would be expected, taxfilers who fell into higher income brackets generally recorded higher contributions to RRSPs. In 2008, taxfilers who made RRSP contributions accounted for 28.4% of the total number of taxfilers. This figure is down 3.6 percentage points from the 2007 level of 32.0% and down 1.8 percentage points from the 2006 level of 30.2%.

8

All Taxfilers with Child Care Expenses Allowed, Yukon, 2008

In 2008, 1,520 taxfilers claimed child care expenses in Yukon. This figure increased by 350, or 29.9%, from the 2007 figure (1,170). During the 2008 tax year, a total of \$4,025,000 in child care expenses was allowed for a total of 2,400 children. This means an average deduction of \$1,677 was allowed for each child claimed. In the 2007 tax year, a revised figure of \$2,819,000 was allowed for child care expenses, 1,630 children were claimed, and an average allowable deduction for each child claimed was \$1,729.

Total Income Class	Number of Taxfilers Claiming	Number of Children Claimed	Child Care Expenses Allowed

Average Tax Payable¹, 2008

This graph is based only on **TAXABLE** returns as opposed to **TOTAL** returns which the rest of this publication is reporting

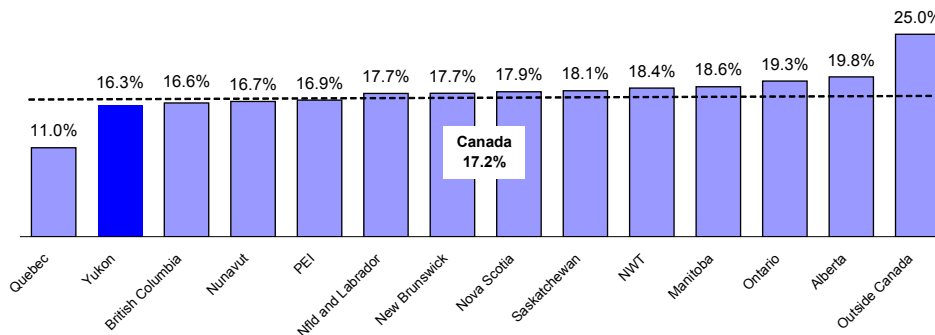

¹ Federal and provincial/territorial income taxes are included.

13

Average Tax Payable¹ as a Percentage of Average Total Income Assessed, 2008

This graph is based only on **TAXABLE** returns as opposed to **TOTAL** returns which the rest of this publication is reporting

¹ Federal and provincial/territorial income taxes are included.

The information contained in this publication is based on Canada Revenue Agency data. Taxfilers include all returns filed with and without income reported. Some returns are filed for the sole purpose of the GST Credit and/or Child Tax Benefit. All figures are reported in current-year dollars and have not been adjusted for inflation. Statistics pertaining to less than ten taxfilers have been suppressed, however, they are included in all subtotals and totals. All counts of the number of taxfilers have been rounded to the nearest ten. Subtotals and totals were rounded independently. Thus, due to rounding and suppression, numbers may not sum to totals. Dollar values have been rounded to the nearest \$1,000.
