

## Yukon Income Statistics 2013 Taxation Year

### Highlights:

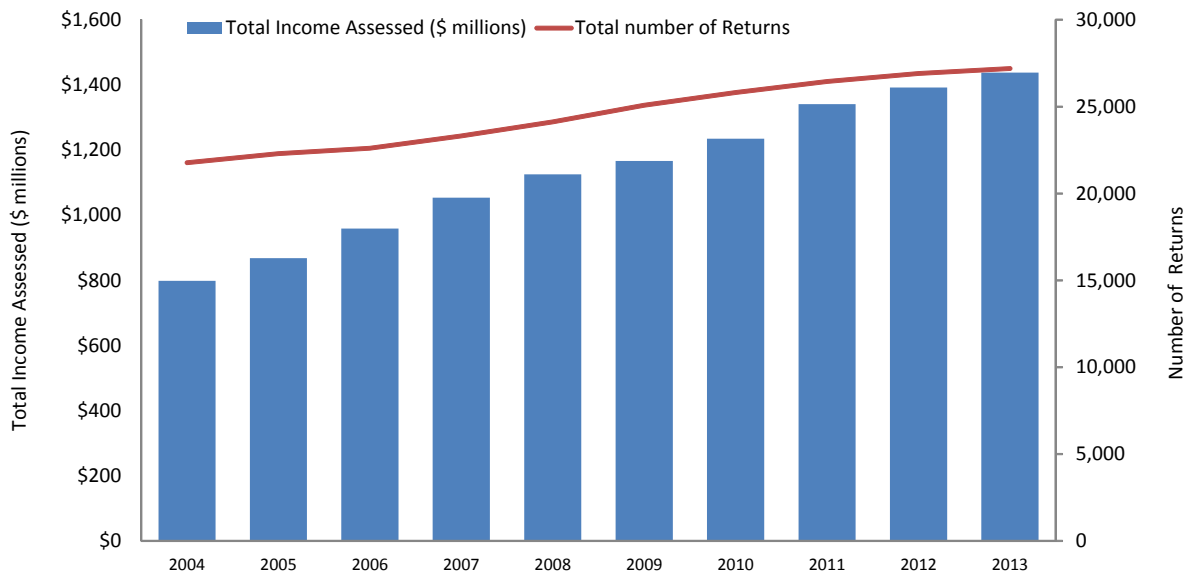

- There were 27,200 income taxfilers in Yukon in 2013, an increase of 290, or 1.1%, compared to 2012.
- Yukoners' total income assessed in 2013 was \$1.4 billion, for an average of \$52,866 per taxfiler.
- Taxfilers in the 55-59 years age group had the highest average income assessed at \$68,551 in 2013.

*The data contained in this publication are from Canada Revenue Agency (CRA) based on province or territory of residence indicated on T1 Income Tax and Benefit Returns. Final statistics are based on all returns (including reassessments up to June 30th of year following filing date for any given tax year) for the tax years from 2009 to the reference year of this publication. Data from a stratified random sample of individual tax returns are used for the 2004 to 2008 tax years. Community data are based on Individual Tax Statistics by Area (formerly Locality Code Statistics). Community assignment is based on the mailing address on returns. Except where noted, 'number of returns' refers to all returns filed with and without reported income. Some returns are filed for the sole purpose of the GST Credit and/or Child Tax Benefit. All figures are reported in current-year dollars and have not been adjusted for inflation. Statistics pertaining to less than ten taxfilers have been suppressed, however they are included in the subtotals and totals. All counts of the number of taxfilers have been rounded to the nearest multiple of ten. Subtotals and totals were rounded independently. Thus, due to rounding and suppression, number in a row or in a column may not add up to the respective total.*

For the 2013 tax year, the total number of income tax returns filed was 27,200; an increase of 290, or 1.1%, compared to 2012 (26,910). The total income assessed in 2013 was \$1,437,942,000, the highest on record for Yukon and the seventh consecutive year that total income assessed exceeded the \$1 billion mark.

For the 2012 tax year, Yukoners filed 26,910 tax returns. The total income assessed was \$1,392,310,000. From 2012 to 2013, the total income assessed increased by \$45,632,000, or 3.3%. In 2013, Yukon's taxfilers had an average assessed income of \$52,866; in 2012, this figure was \$51,740. The average income assessed increased by \$1,126, or 2.2% from 2012 to 2013.

## Number of Returns by Age Group of Taxfilers, Yukon, 2011 to 2013

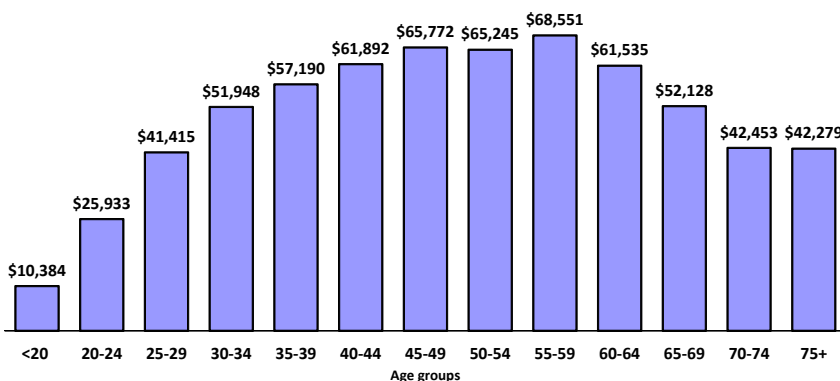

Source: CRA T1 Final Statistics, Table 4.

Taxfilers in the 50-54 years age group made up the largest number of taxfilers in 2013. There were 2,880 taxfilers in this age group accounting for 10.6% of all taxfilers.

Comparing 2013 to 2012, the age group with the largest increase in the number of taxfilers was the 30-34 years, with an increase of 120, or 4.8%.

## Average Income Assessed by Age Group of Taxfilers, Yukon, 2013

Source: CRA T1 Final Statistics, Table 4.

In the 2013 tax year, Yukon taxfilers' average income assessed increased for each age group up to 45-49 years, and then decreased slightly for the age group 50-54 years.

The highest average income of \$68,551 was assessed for the 55-59 years of age group. As would be expected, taxfilers in the less than 20 years age group had the lowest average income assessed in 2013 at \$10,384.

## Returns by Major Source of Income, Yukon, 2013

	Number of Returns	Total Income Assessed (\$000)
Fishing and Farming	20	\$353
Self-employed Sales	30	\$1,179
Professional Income	160	\$12,776
Investment	890	\$86,391
Benefit	2,110	\$39,464
Business Proprietorship or Partnership	1,570	\$61,104
Pension	3,150	\$111,053
Employment	18,780	\$1,095,136
Other	490	\$30,485
<b>Total</b>	<b>27,200</b>	<b>\$1,437,942</b>

Source: CRA T1 Final Statistics, Table 3.

In the graph and the table above, returns have been grouped by major source of income.

For self-employment income, the gross income was used to determine the major source of income. For instance, a taxfiler who reported employment earnings of \$30,000, gross business income of \$25,000, and investment income of \$5,000 would be classified under 'employment'.

**Farming and Fishing:** self-employed taxfilers who earn their major source of income from fishing or farming.

**Self-employed Sales:** taxfilers whose major source of earnings is commission income from self-employment.

**Professional Income:** self-employed taxfilers whose major source of income is professional fees (including accountants, doctors and surgeons, dentists, lawyers and notaries, engineers and architects, entertainers, artists, etc.).

**Investment:** taxfilers whose major source of income is interest, taxable dividends from Canadian corporations, taxable capital gains, limited partnership net income and other investment income.

**Benefit:** taxfilers whose major source of income is employment insurance, social assistance payments, Universal Child Care Benefits, workers' compensation benefits, and net federal supplements.

**Business Proprietorship or Partnership:** taxfilers whose major source of income is business income.

**Pension:** taxfilers whose major source of income is pension or split pension income.

**Employment:** taxfilers employed by a business, institution, school, federal or provincial Crown corporation, or some form of government body.

**Other:** taxfilers whose major source of income is alimony, RRSP income, registered disability savings plan income or other unspecified income.
