Contributors aged 25 to 34 represented 20% of the total contributors, with their contributions representing 12% of the total contributions. Persons aged 35 to 44 accounted for 23% of contributors and 18% of contributions, while those aged 45 to 54 accounted for the largest percentage of contributors (25%) and 27% of contributions. Yukoners aged 55 to 64 accounted for 23% of the total number of contributors and 33% of total contributions and those aged 65 years and older accounted for 6% of contributors and 8% of contributions.

- In 2014, 66% of Yukon’s RRSP contributors had a total income of $80,000 or more; 17% had a total income between $60,000 and $79,999; 10% between $40,000 and $59,999; 6% between $20,000 and $39,999 and 1% of contributors had a total income of less than $20,000.

- Of those Yukon taxpayers with RRSP room in 2014, 94.8% had unused room from previous years. Persons with RRSP room is the number of taxfilers who have either unused room from previous years, new room based on their earned income, or both. New RRSP room is included in the total RRSP room, and is calculated as 18% of earned income minus pension adjustment (PA), minus past service pension adjustment (PSPA) in the tax year. Unused room is the amount of RRSP deduction limit that is not claimed by the taxfiler, or the amount remaining after subtracting actual contributions claimed on the tax return from that year’s contribution room. Unused room can be carried forward indefinitely.
