

CONSUMER PRICE INDEX

March 2008

1 Consumer Price Index (CPI), All Items, 2002 = 100

Month	CPI	Annual Rate of Inflation
Whitehorse		
Mar '08	111.0	2.8% (Mar '07 to Mar '08)
Feb '08	110.1	2.6% (Feb '07 to Feb '08)
Mar '07	108.0	2.0% (Mar '06 to Mar '07)
Canada		
Mar '08	112.6	1.4% (Mar '07 to Mar '08)
Feb '08	112.2	1.8% (Feb '07 to Feb '08)
Mar '07	111.1	2.3% (Mar '06 to Mar '07)

Comparing the month of March 2008 with March 2007, the **annual** rate of inflation in Whitehorse (2.8%) was 1.4 percentage points higher than the **annual** rate of inflation in Canada (1.4%). This is the ninth consecutive month that Whitehorse has been higher than the national rate.

On a **monthly** basis, in Whitehorse (figures for the Yukon are not available) overall prices **increased 0.8%** from February to March 2008.

Major **monthly increases** were seen in the following CPI commodities:

- fuel oil and other fuels
- footwear
- mortgage interest cost

Some of the major **decreases** offsetting **monthly** increases were:

- purchase and leasing of passenger vehicles
- women's clothing
- fresh fruit

Annual increases for Whitehorse in March were in mortgage interest costs, gasoline, and electricity. Offsetting some of these **annual** increases were decreases in purchase and leasing of passenger vehicles, recreational equipment and services (excluding recreational vehicles), and personal care supplies and equipment.

Inflation Rate

Each bar represents a month of the year, with the first letter of the month's name listed below the bar.

The Consumer Price Index (CPI) is produced on a monthly basis by Statistics Canada. The data used to determine the CPI are collected by survey and the results are released in Statistics Canada publication The Consumer Price Index, catalogue no. 62-001. The Index is used to determine price change (inflation) in a given city or province over time. In order to calculate the inflation rate in an area, an index for two time periods is required. The percentage change in this index from one point in time to the next is known as the 'rate of inflation' (or 'rate of deflation' if there is a decrease).

The current official time base of the Consumer Price Index (CPI) is 2002 = 100.
