

CONSUMER PRICE INDEX

September 2009

1 Consumer Price Index (CPI), All Items, 2002 = 100

Month	CPI	Annual Rate of Inflation
Whitehorse		
Sep '09	113.7	-1.0% (Sep '08 to Sep '09)
Aug '09	114.2	-1.0% (Aug '08 to Aug '09)
Sep '08	114.8	3.6% (Sep '07 to Sep '08)
Canada		
Sep '09	114.7	-0.9% (Sep '08 to Sep '09)
Aug '09	114.7	-0.8% (Aug '08 to Aug '09)
Sep '08	115.7	3.4% (Sep '07 to Sep '08)

On a **monthly** basis, in Whitehorse (figures for the Yukon are not available) overall prices **decreased 0.4%** from August to September 2009.

Major **monthly decreases** were seen in the following CPI commodities:

- furniture
- purchase and leasing of passenger vehicles
- traveller accommodation

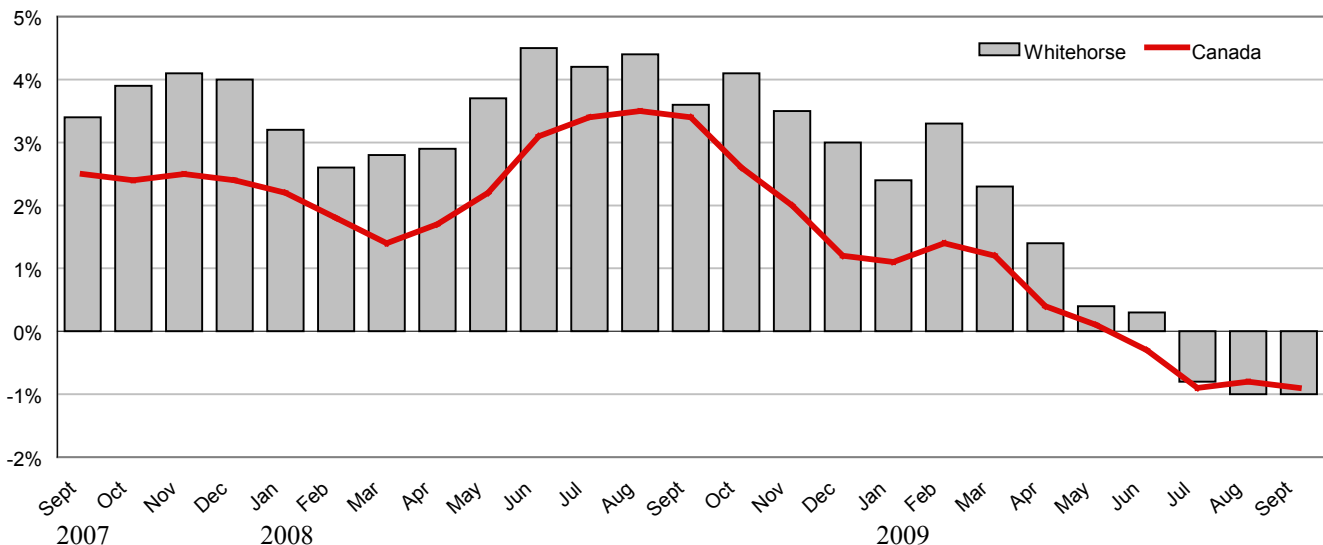

Some of the major **increases** partially offsetting **monthly** decreases were:

- fuel oil and other fuels
- cablevision and satellite services (including pay television)
- personal care supplies and equipment

Comparing the month of September 2009 with September 2008, the **annual** rate of *deflation* in Whitehorse (1.0%) was 0.1 percentage points higher than the **annual** rate of *deflation* in Canada (0.9%). This is the highest rate of *deflation* for Whitehorse since February 2004 (-1.1%).

Annual decreases for Whitehorse in September were again in gasoline, fuel oil and other fuels, and electricity. Offsetting some of these **annual** decreases were increases in rent, homeowners' replacement costs and inter-city transportation.

The Consumer Price Index (CPI) is produced on a monthly basis by Statistics Canada. The data used to determine the CPI are collected by survey and the results are released in Statistics Canada's publication, *The Consumer Price Index*, catalogue no. 62-001. The Index is used to determine price change (inflation or deflation) in a given city or province over time. In order to calculate the inflation/deflation rate in an area, an index for two time periods is required. The percentage change in this index from one point in time to the next is known as the 'rate of inflation' (or 'rate of deflation' if there is a decrease).

The current official time base of the Consumer Price Index (CPI) is 2002 = 100.
