Notes: All figures are based on Statistics Canada's Labour Force Survey (LFS) estimates. Statistics Canada reports LFS figures rounded to the nearest hundred. Therefore, components may not add up to the total.

Analyses and data tables in pages 1 through 4 are based on seasonally adjusted numbers. Unadjusted figures are available on pages 5 through 7.

Seasonally adjusted employment figures are widely used and quoted, as they are considered to be a more accurate picture of the current employment situation than unadjusted figures. Some variables, however, are only available on an unadjusted basis. Comparisons between adjusted and unadjusted figures should not be made. For more information, see [definitions on page 8](#).

# Comparisons with Canada, Provinces and Territories - Snapshot

The participation rate measures the percentage of the population aged 15 years and over, which is working or actively looking for work. In February 2017, Yukon's participation rate (76.5%) was the highest in Canada, followed by Alberta (72.5%).

Yukon's February 2017 employment rate (the percentage of the population aged 15 years and over, which is employed), was 73.3%, also the highest in Canada, followed by Alberta (66.5%).

# Comparisons with Canada and Selected Provinces - Historical

The Labour Force Survey estimates that 76.5% of Yukoners aged 15 years and over were employed or seeking employment in February 2017.

Yukon's participation rate in February 2017 (76.5%) increased by 0.1 percentage point compared to the rate in January 2017 (76.4%) and increased by 2.4 percentage points compared to the rate in February 2016 (74.1%).

The February 2017 employment rate of 73.3% increased by 0.4 percentage points compared to the rate in January 2017 (72.9%) and was up by 3.8 percentage points compared to the rate in February 2016 (69.5%).

*Yukon's labour market in terms of participation rate and employment rate tends to be similar to Alberta's. However, as is often the case with a small population base, our rates show a higher degree of volatility.*

Participation Rate, February 2015 - February 2017

Employment Rate, February 2015 - February 2017

Unemployment Rate, February 2015 - February 2017

Employment by Age and Sex, February 2015 - February 2017

Unemployment Rate by Age and Sex, February 2015 - February 2017

- Comparing February 2017 to January 2017, the unemployment rate for males aged 15 years and over decreased from 6.5% to 6.4%, and the rate for males aged 25 years and over increased from 4.2% to 5.3%. Over the same time period, the rate for females aged 15 years and over decreased from 3.8% to 2.8%. The rate for females aged 25 years and over decreased from 3.2% to 2.2%.
- The unemployment rate for Yukon's youth (aged 15-24) decreased from 15.4% in January 2017 to 11.1% in February 2017. The youth unemployment rate has been over 10% since January 2016.

# Employment, *Unadjusted*, by Full-time/Part-time, February 2017

Full-time employment as a percentage of all employment, February 2015 - February 2017

- Of employed Yukoners aged 15 years and over, 16,400, or 80.4%, were employed full-time in February 2017. This was the sixth-lowest proportion among all other jurisdictions followed by Manitoba (80.3%), Ontario (80.1%), Quebec (79.1%), Nova Scotia (79.0%) and British Columbia (78.1%).
- Nationally, 79.8% of employed Canadians worked full-time in February 2017.
- Of employed Yukon males, 83.3% worked full-time, compared to 77.5% of employed Yukon females.
- Comparing February 2017 to January 2017, full-time employment remained the same at 16,400. Part-time employment increased by 200 to 4,000.

## Employment, *Unadjusted*, by Industry, February 2017

	Both sexes	Males	Females
<b>Total employed</b>	20,400	10,200	10,200
Goods-producing sector	2,500	2,200	400
Construction	1,900	1,700	200
Services-producing sector	17,900	8,000	9,900
Trade	2,400	1,400	900
Transportation and warehousing	1,100	800	300
Finance, insurance, real estate and leasing	800	400	400
Professional, scientific and technical services	1,100	700	500
Business, building and other support services	500	300	x
Educational services	1,800	500	1,300
Health care and social assistance	2,900	700	2,200
Information, culture and recreation	1,100	600	500
Accommodation and food services	1,900	900	1,000
Other services	1,000	400	600
Public administration	3,300	1,200	2,100

**Notes:**  
The sum of industries does not equal sector totals as industries with fewer than 500 workers are not shown; row data may not add up to industry totals due to rounding.  
'Industry' refers to the general nature of the business carried out by the employer for whom the LFS respondent works (main job only).

- In February 2017, 17,900, or 87.7% of working Yukoners were employed in the services-producing sector, while 2,500, or 12.3%, were employed in the goods-producing sector.

- Of Yukoners working in the goods-producing sector, 76.0% had jobs in the construction industry.

- While females accounted for 55.3% of workers in Yukon's services-producing sector, only 15.4% of the goods-producing sector workers were female.

### Goods- and services-producing sectors

The goods-producing sector includes industries that are involved in extracting resources directly from the earth (e.g. farming, mining, logging) or processing the resources (e.g. utilities, construction, manufacturing). Yukon's goods-producing sector consists primarily of industries in construction and mining.

The services-producing sector includes industries involved in the provision of services.

Goods- and Services-Producing Sectors, Employment, February 2015 - February 2017

- Employment in Yukon's goods-producing sector peaked in August 2012 with 4,000 workers. Employment in the services-producing sector reached a record-high level of 18,100 in August 2014, July 2016 and October 2016.

- Comparing February 2017 to January 2017, employment in the goods-producing sector decreased by 200, or 7.4%, to 2,500 and employment in the services-producing sector increased by 400, or 2.3%, to 17,900.

## Public and Private Sectors, *Unadjusted*, February 2017

	Both sexes	Males	Females
<b>Total Employed</b>	20,400	10,200	10,200
Public employees	8,400	3,300	5,000
Total private sector	12,100	6,900	5,200
Private employees	8,800	4,900	3,900
Self-employed	3,300	2,000	1,300

- In February 2017, 41.0% of working Yukoners were employed by one of the four levels of government in the territory.

- Of the private sector, 27.3% were self-employed.

- In February 2017, private sector employment remained the same at 12,100; public sector employment increased by 300, or 3.7%, to 8,400, compared to January 2017.

Public/Private Sector Employment, February 2015 - February 2017

**Notes:**

'Employees' include full-time, part-time, permanent and temporary employees.

'Public employees' are those who work for: a government at the federal, provincial, territorial, municipal, First Nations or other Aboriginal government level; a government service or agency; a Crown corporation; or for a government funded establishment such as schools (including colleges/universities), hospitals and public libraries.

'Private employees' include all employees who work for private firms or businesses.

# Labour Force Survey Definitions

---

**Employment** — Employed persons are those who, during the reference week, did any work for pay or profit, or had a job and were absent from work.

**Employment rate** — Also referred to as “employment/population ratio,” it is the number of employed persons expressed as a percentage of the population aged 15 years and over. The employment rate for a particular group (for example, women aged 25 years and over) is the number employed in that group expressed as a percentage of the population for that group.

**Goods-Producing Industries** — Goods-Producing Industries (or goods sector, or goods industries): includes agriculture, other primary industries (forestry; fishing and trapping; mines, quarries and oil wells), manufacturing, construction and utilities (electric power, gas and water).

**Labour force** — The labour force is the civilian non-institutional population 15 years of age and over who, during the survey reference week, were employed or unemployed.

**Not in the labour force** — Persons not in the labour force are those who, during the reference week, were unwilling or unable to offer or supply labour services under conditions existing in their labour markets; that is, they were neither employed nor unemployed.

**Participation rate** — The participation rate is the total labour force expressed as a percentage of the population aged 15 years and over. The participation rate for a particular group (for example, women aged 25 years and over) is the labour force in that group expressed as a percentage of the population for that group.

**Reference Week** — The reference week is the entire calendar week (from Sunday to Saturday) covered by the Labour Force Survey each month. It is usually the week containing the 15th day of the month. The interviews are conducted during the following week, called the Survey Week, and the labour force status determined is that of the reference week.

**Seasonal adjustment** — Fluctuations in economic time series are caused by seasonal, cyclical and irregular movements. A seasonally adjusted series is one from which seasonal movements have been eliminated. Seasonal movements are defined as those that are caused

by regular annual events such as climate, holidays, vacation periods and cycles related to crops, production and retail sales associated with Christmas and Easter. It should be noted that the seasonally adjusted series contain irregular as well as longer-term cyclical fluctuations.

**Self-employed** — There are two broad categories of workers: those who work for others and those who work for themselves, namely, the self-employed. The self-employed includes working owners of incorporated businesses, working owners of unincorporated businesses and other self-employed.

**Service-Producing Industries** — Service-Producing Industries (or service sector, or service industries): includes trade; transportation and warehousing; finance, insurance, real estate and leasing; professional, scientific and technical services; management, administrative and other support; educational services; health care and social assistance; information, culture and recreation; accommodation and food services; other services; and public administration.

**Three-Month Moving Average** — All monthly figures for the Territories, whether seasonally adjusted or unadjusted, are three-month moving averages – for example, the March 2011 unemployment rate of 4.5% is actually an average of the unemployment rates for the months of January, February and March. April’s unemployment rate became the average of the rates for February, March and April. Because they are three-month moving averages, the Territories’ figures are not included in the calculation of Canada’s numbers.

**Unemployment** — Unemployed persons are those who, during the reference week, were available for work and were either on temporary layoff, had looked for work in the past four weeks, or had a job to start within the next four weeks.

**Unemployment rate** — The unemployment rate is the number of unemployed persons expressed as a percentage of the labour force. The unemployment rate for a particular group (age, sex, marital status, etc.) is the number unemployed in that group expressed as a percentage of the labour force for that group.
