Notes: All figures are based on Statistics Canada's Labour Force Survey (LFS) estimates. Statistics Canada reports LFS figures rounded to the nearest hundred. Therefore, components may not add up to the total.

Analyses and data tables in pages 1 through 4 are based on seasonally adjusted numbers. Unadjusted figures are available on pages 5 through 7.

Seasonally adjusted employment figures are widely used and quoted, as they are considered to be a more accurate picture of the current employment situation than unadjusted figures. Some variables, however, are only available on an unadjusted basis. Comparisons between adjusted and unadjusted figures should not be made. For more information, see [definitions on page 8](#).

Comparisons with Canada, Provinces and Territories - Snapshot

The participation rate measures the percentage of the population aged 15 years and over, which is working or actively looking for work. In May 2018, Yukon's participation rate (75.4%) was the highest in Canada, followed by Alberta (71.4%).

Yukon's May 2018 employment rate (the percentage of the population aged 15 years and over, which is employed), was 73.4%, also the highest in Canada, followed by Alberta (67.2%).

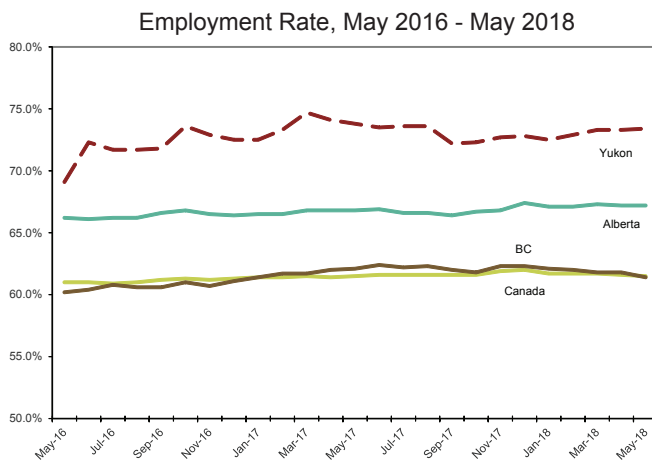

Comparisons with Canada and Selected Provinces - Historical

The Labour Force Survey estimates that 75.4% of Yukoners aged 15 years and over were employed or seeking employment in May 2018.

Yukon's participation rate in May 2018 (75.4%) increased by 0.1 percentage point compared to the rate in April 2018 (75.3%) and decreased by 1.9 percentage points compared to the rate in May 2017 (77.3%).

The May 2018 employment rate of 73.4% increased by 0.1 percentage point compared to the rate in April 2018 (73.3%) and decreased by 0.4 percentage points compared to the rate in May 2017 (73.8%).

Yukon's labour market in terms of participation rate and employment rate tends to be similar to Alberta's. However, as is often the case with a small population base, our rates show a higher degree of volatility.

Labour Force, *Unadjusted*, by Age and Sex, May 2018

		Labour force	Employment	Unemployment	Not in labour force	Unemployment rate	Participation rate	Employment rate
Both Sexes	15 +	21,700	21,100	600	7,600	2.8	74.1	72.0
	15 - 24	2,500	2,400	x	1,900	x	56.8	54.5
	25 +	19,200	18,700	500	5,700	2.6	77.1	75.1
	25 - 54	13,900	13,500	400	1,500	2.9	90.3	87.7
	55 +	5,300	5,200	200	4,200	3.8	55.2	54.2
Males	15 +	11,200	10,700	500	3,700	4.5	75.7	72.3
	15 - 24	1,300	1,200	x	1,000	x	56.5	52.2
	25 +	9,900	9,600	400	2,600	4.0	78.6	76.2
	25 - 54	7,000	6,800	200	600	2.9	90.9	88.3
	55 +	2,900	2,700	200	2,000	6.9	59.2	55.1
Females	15 +	10,500	10,400	x	3,900	x	72.4	71.7
	15 - 24	1,200	1,200	x	800	x	57.1	57.1
	25 +	9,300	9,100	x	3,100	x	75.0	73.4
	25 - 54	6,800	6,700	x	900	x	88.3	87.0
	55 +	2,400	2,400	x	2,200	x	52.2	52.2

x = suppressed

Note: Data may not add up to the totals due to rounding.

Employment by Age and Sex,
May 2016 - May 2018

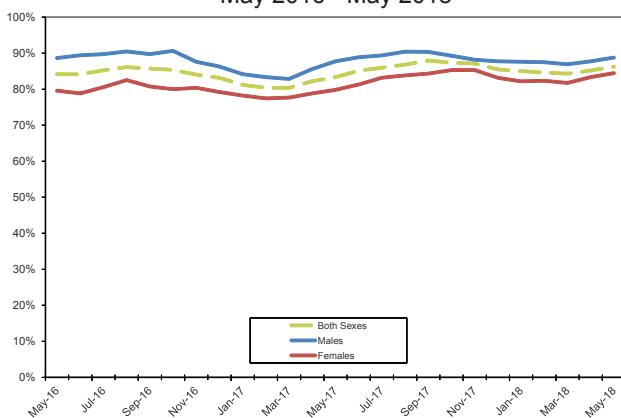

Unemployment Rate by Age and Sex,
May 2016 - May 2018

- Comparing May 2018 to April 2018, the unemployment rate for males aged 15 years and over increased from 2.8% to 4.5%, and the rate for males aged 25 years and over increased from 3.1% to 4.0%. Over the same time period, the rate for females aged 15 years and over, as well as the rate for females aged 25 years and over, were suppressed due to the number of unemployed in the respective age group being less than 200.
- The unemployment rate for Yukon's youth (aged 15-24) decreased from 8.3% in December 2017 to lower levels in January through May 2018 that led to a suppression of the rate due to the number of unemployed being less than 200. This is the fifth consecutive month that the number of youth unemployed has been under 200.

Employment, *Unadjusted*, by Full-time/Part-time, May 2018

Full-time employment as a percentage of all employment,
May 2016 - May 2018

- Of employed Yukoners aged 15 years and over, 18,200, or 86.3%, were employed full-time in May 2018. This was the second-highest proportion among all other jurisdictions. Nationally, 81.7% of employed Canadians worked full-time in May 2018.
- Of employed Yukon males, 88.8% worked full-time, compared to 84.5% of employed Yukon females.
- Comparing May 2018 to April 2018, full-time employment increased by 400 to 18,200. Part-time employment decreased by 200 to 2,900.

Employment, *Unadjusted*, by Industry, May 2018

	Both sexes	Males	Females
Total employed	21,100	10,700	10,400
Goods-producing sector	3,100	2,700	400
Forestry, fishing, mining, oil and gas	500	400	x
Construction	1,900	1,800	x
Services-producing sector	18,000	8,000	10,000
Trade	2,400	1,400	1,100
Transportation and warehousing	800	600	200
Finance, insurance, real estate and leasing	500	300	200
Professional, scientific and technical services	900	400	500
Business, building and other support services	600	300	300
Educational services	1,800	700	1,100
Health care and social assistance	3,600	1,000	2,600
Information, culture and recreation	1,400	800	600
Accommodation and food services	1,300	500	800
Other services	700	400	400
Public administration	4,000	1,600	2,400

Notes:

The sum of industries does not equal sector totals as industries with fewer than 500 workers are not shown; row data may not add up to industry totals due to rounding.

'Industry' refers to the general nature of the business carried out by the employer for whom the LFS respondent works (main job only).

- In May 2018, 18,000, or 85.3% of working Yukoners were employed in the services-producing sector, while 3,100, or 14.7%, were employed in the goods-producing sector.

- Of Yukoners working in the goods-producing sector, 61.3% had jobs in the construction industry.

- While females accounted for 55.6% of workers in Yukon's services-producing sector, only 12.9% of the goods-producing sector workers were female.

Goods- and services-producing sectors

The goods-producing sector includes industries that are involved in extracting resources directly from the earth (e.g. farming, mining, logging) or processing the resources (e.g. utilities, construction, manufacturing). Yukon's goods-producing sector consists primarily of industries in construction and mining.

The services-producing sector includes industries involved in the provision of services.

Goods- and Services-Producing Sectors, Employment, May 2016 - May 2018

- Employment in Yukon's goods-producing sector peaked in August 2012 with 4,000 workers. Employment in the services-producing sector reached a record-high level (19,100) in July 2017.

- Comparing May 2018 to April 2018, employment in the goods-producing sector increased by 400 to 3,100 and employment in the services-producing sector decreased by 100 to 18,000.

Public and Private Sectors, *Unadjusted*, May 2018

	Both sexes	Males	Females
Total Employed	21,100	10,700	10,400
Public sector employees	9,500	4,200	5,300
Total private sector	11,700	6,500	5,100
Private sector employees	8,400	4,500	3,800
Self-employed	3,300	2,000	1,300

- In May 2018, 44.8% of working Yukoners were employed by one of the four levels of government in the territory.
- In the private sector, 28.2% were self-employed.
- In May 2018, private sector employment increased by 400, or 3.5%, to 11,700; and public sector employment remained the same at 9,500, compared to April 2018.

Public/Private Sector Employment, May 2016 - May 2018

Notes:

'Employees' include full-time, part-time, permanent and temporary employees.

'Public employees' are those who work for: a government at the federal, provincial, territorial, municipal, First Nations or other Aboriginal government level; a government service or agency; a Crown corporation; or for a government funded establishment such as schools (including colleges/universities), hospitals and public libraries.

'Private employees' include all employees who work for private firms or businesses.

Labour Force Survey Definitions

Employment — Employed persons are those who, during the reference week, did any work for pay or profit, or had a job and were absent from work.

Employment rate — Also referred to as “employment/population ratio,” it is the number of employed persons expressed as a percentage of the population aged 15 years and over. The employment rate for a particular group (for example, women aged 25 years and over) is the number employed in that group expressed as a percentage of the population for that group.

Goods-Producing Industries — Goods-Producing Industries (or goods sector, or goods industries): includes agriculture, other primary industries (forestry; fishing and trapping; mines, quarries and oil wells), manufacturing, construction and utilities (electric power, gas and water).

Labour force — The labour force is the civilian non-institutional population 15 years of age and over who, during the survey reference week, were employed or unemployed.

Not in the labour force — Persons not in the labour force are those who, during the reference week, were unwilling or unable to offer or supply labour services under conditions existing in their labour markets; that is, they were neither employed nor unemployed.

Participation rate — The participation rate is the total labour force expressed as a percentage of the population aged 15 years and over. The participation rate for a particular group (for example, women aged 25 years and over) is the labour force in that group expressed as a percentage of the population for that group.

Reference Week — The reference week is the entire calendar week (from Sunday to Saturday) covered by the Labour Force Survey each month. It is usually the week containing the 15th day of the month. The interviews are conducted during the following week, called the Survey Week, and the labour force status determined is that of the reference week.

Seasonal adjustment — Fluctuations in economic time series are caused by seasonal, cyclical and irregular movements. A seasonally adjusted series is one from which seasonal movements have been eliminated. Seasonal movements are defined as those that are caused

by regular annual events such as climate, holidays, vacation periods and cycles related to crops, production and retail sales associated with Christmas and Easter. It should be noted that the seasonally adjusted series contain irregular as well as longer-term cyclical fluctuations.

Self-employed — There are two broad categories of workers: those who work for others and those who work for themselves, namely, the self-employed. The self-employed includes working owners of incorporated businesses, working owners of unincorporated businesses and other self-employed.

Service-Producing Industries — Service-Producing Industries (or service sector, or service industries): includes trade; transportation and warehousing; finance, insurance, real estate and leasing; professional, scientific and technical services; management, administrative and other support; educational services; health care and social assistance; information, culture and recreation; accommodation and food services; other services; and public administration.

Three-Month Moving Average — All monthly figures for the Territories, whether seasonally adjusted or unadjusted, are three-month moving averages – for example, the March 2011 unemployment rate of 4.5% is actually an average of the unemployment rates for the months of January, February and March. April’s unemployment rate became the average of the rates for February, March and April. Because they are three-month moving averages, the Territories’ figures are not included in the calculation of Canada’s numbers.

Unemployment — Unemployed persons are those who, during the reference week, were available for work and were either on temporary layoff, had looked for work in the past four weeks, or had a job to start within the next four weeks.

Unemployment rate — The unemployment rate is the number of unemployed persons expressed as a percentage of the labour force. The unemployment rate for a particular group (age, sex, marital status, etc.) is the number unemployed in that group expressed as a percentage of the labour force for that group.
