

Introduction

This report presents the results of the 2005 Survey of Household Spending (SHS), conducted January through March 2006 by Statistics Canada. Information about the spending patterns, dwelling characteristics, and household equipment of Canadian households during 2005 was obtained by asking people in the ten provinces and three territories to recall their expenditures for the previous calendar year. This report focuses on spending patterns in the Yukon as well as providing comparisons with Canada and other Canadian jurisdictions.

The first section of this report compares total expenditures in the Yukon with expenditures in other territories,

the provinces, and Canada overall. This is done in order to show differences in spending behaviour between the Yukon and the rest of Canada. The following section provides a historical comparison of spending in Whitehorse, showing how spending patterns have changed over time. The last section provides a detailed list of spending in the Yukon, based on the 2005 Survey of Household Spending. The numbers in this section reveal how money was spent in Yukon households in 2005 and are an indication of the economic and social well-being of Yukoners in that year.

The Survey of Household Spending collects information that is broadly comparable to the former Family Expenditure Survey (FAMEX). There are, however, several noteworthy differences between the two surveys. FAMEX was conducted nationally every four years. In order to reduce the response burden on the small population base of the territories, SHS is conducted annually in the provinces but only every second year in the territories. The SHS sample is fifty percent larger than the FAMEX sample. Again, in an effort to reduce response burden, the SHS survey features fewer detailed expenditure categories than did the FAMEX survey. Another major difference between the two surveys is that SHS reports results for Whitehorse and the Yukon, whereas FAMEX reported results for Whitehorse only. All pre-1997 figures in this report are from FAMEX.

Average Total Expenditures

In 2005, the average total expenditure by Yukon households was \$64,477. The Yukon was fifth in total expenditure, behind the NWT (\$89,729), Ontario (\$75,920), Alberta (\$75,346), and British Columbia (\$68,231). The average total expenditure in Canada was \$66,857.

Average Household Spending, Canada and Yukon, 1997 - 2005

Source: Statistics Canada CANSIM Table # 203-0001

Note: In 1998, 1999, and every second year thereafter starting with 2001, statistics for Canada include the territories. For the other years, Canada-level statistics include the ten provinces only. Data for the territories were collected in 1997, 1998, 1999, and every second year starting with 2001.

Percentage of Households with Home Computers and Internet Use From Home, Canada, Provinces, and Territories, 2005

Source: Statistics Canada Survey of Household Spending, 62F0041.

The Yukon ranked fifth in Canada for the percentage of households with home computers, and was fourth in Internet use from home. British Columbia and Alberta shared first place for households with home computers at 76.8%. British Columbia ranked first in the Internet-use-from-home category at 70.5%.

- 70.7% of households in the Yukon have home computers, compared with 72.0% of households in Canada.
- 63.4% of households in the Yukon use the Internet from home, compared with 64.3% of households in Canada.

Spending Patterns of Households, Canada, Provinces, and Territories, 2005

Source: Statistics Canada CANSIM Table 203-0001. For a detailed list of each spending category for the Yukon, see pages 10 - 16.

Food

In 2005, the average expenditure on food by Yukon households was \$7,350. The Yukon was the *sixth highest* in spending on food, behind Nunavut (\$12,819), the N.W.T. (\$10,002), B.C. (\$7,502), Ontario (\$7,431), and Alberta (\$7,390). The average expenditure on food in Canada was \$7,135.

In 2005, the average expenditure on shelter by Yukon households was \$11,428. The Yukon was the *fifth highest* in spending on shelter, behind the N.W.T. (\$17,692), Ontario (\$15,135), B.C. (\$13,899), and Alberta (\$13,137). The average expenditure on shelter in Canada was \$12,614.

Shelter

Household Operation

In 2005, the average expenditure on household operations by Yukon households was \$3,010. The Yukon was the *seventh highest* in spending on household operations, behind the N.W.T. (\$3,820), Alberta (\$3,569), Ontario (\$3,452), B.C. (\$3,228), Nunavut (3,082), and Nova Scotia (\$3,081). The average expenditure on household operations in Canada was \$3,091.

Spending Patterns of Households, Canada, Provinces, and Territories, 2005

Household Furnishings & Equipment

In 2005, the average expenditure on household furnishings and equipment by Yukon households was \$1,559. Among all provinces and territories, the Yukon was *the lowest* in spending on household furnishings and equipment. The average expenditure on household furnishings and equipment in Canada was \$1,969.

In 2005, the average clothing expenditure by Yukon households was \$2,120. The Yukon was the *fourth lowest* in spending on clothing, ahead of New Brunswick (\$2,034), P.E.I. (\$2,068), and Nova Scotia (\$2,087). The average expenditure for clothing in Canada was \$2,588.

Clothing

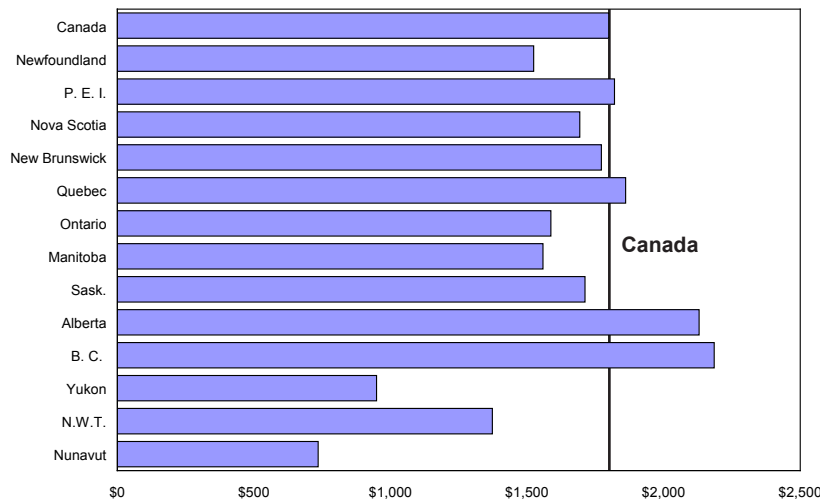

Transportation

In 2005, the average expenditure on transportation by Yukon households was \$9,390. The Yukon was the *fourth highest* in spending on transportation, behind the N.W.T. (\$10,503), Ontario (\$10,351), and Alberta (\$10,301). The average expenditure on transportation in Canada was \$9,073.

Spending Patterns of Households, Canada, Provinces, and Territories, 2005

Health Care

In 2005, the average expenditure on health care by Yukon households was \$949. The Yukon was *second lowest* in spending on health care. Only in Nunavut (\$735) was household spending on health care lower than in the Yukon. The average expenditure on health care in Canada was \$1,799.

In 2005, the average expenditure on personal care by Yukon households was \$877. Among all territories and provinces, the Yukon was *the lowest* in spending on personal care. The average expenditure on personal care in Canada was \$1,094.

Personal Care

Recreation

In 2005, the average expenditure on recreation by Yukon households was \$4,905. The Yukon was the *fourth highest* in spending on recreation, behind the N.W.T. (\$6,166), Nunavut (\$5,347), and Alberta (\$5,100). The average expenditure on recreation in Canada was \$3,918.

Spending Patterns of Households, Canada, Provinces, and Territories, 2005

Reading Materials and Other Printed Matter

In 2005, the average expenditure on reading materials and other printed matter by Yukon households was \$362. The Yukon was *the highest* in spending on this category, with the N.W.T. second highest at \$327. The average expenditure on reading materials and other printed matter in Canada was \$284.

In 2005, the average expenditure on education by Yukon households was \$477. The Yukon was the *second lowest* in spending on education, ahead of only Nunavut (\$235). The average expenditure on education in Canada was \$1,219.

Education

Tobacco Products and Alcoholic Beverages

In 2005, the average expenditure on tobacco products and alcoholic beverages by Yukon households was \$2,185. The Yukon was the *third highest* in spending on tobacco and alcohol, behind the N.W.T. (\$3,182) and Nunavut (\$2,771). The average expenditure on tobacco products and alcoholic beverages in Canada was \$1,422.

Spending Patterns of Households, Canada, Provinces, and Territories, 2005

Personal Taxes

In 2005, the average expenditure on personal taxes by Yukon households was \$13,411. The Yukon was the *fifth highest* in spending on personal taxes, behind the N.W.T. (\$20,949), Ontario (\$16,308), Alberta (\$16,094), and Nunavut (\$13,467). The average expenditure on personal taxes in Canada was \$13,698.

Personal Insurance Payments and Pension Contributions

In 2005, the average expenditure on personal insurance payments and pension contributions by Yukon households was \$3,850. The Yukon was the *fourth highest* in spending in this category, behind the N.W.T. (\$5,299), Ontario (\$4,388), and Alberta (\$4,043). The average expenditure on personal insurance payments and pension contributions in Canada was \$3,921.

Gifts of Money and Contributions

In 2005, the average expenditure on gifts of money and contributions by Yukon households was \$1,557. The Yukon was the *sixth highest* in spending on gifts of money and contributions, behind Ontario (\$2,299), Manitoba (\$2,211), Alberta (\$2,190), Saskatchewan (\$1,863), and B.C. (\$1,816). The average expenditure on gifts of money and contributions in Canada was \$1,753.

Historical Spending Patterns of Whitehorse Households

Average Household Spending and Average Household Income Before Taxes, Whitehorse, 1997 to 2005

From 1997 to 2005, average household spending in Whitehorse increased by \$6,976 (11.6%). The increase in household spending reflects the increase in average household income, which rose \$12,969 (20.5%) from 1997 to 2005.

Source: Based on Statistics Canada's Survey of Household Spending 62F0031.

Notes: Data for the territories were collected in 1997, 1998, 1999, and every second year starting with 2001.

Data from 2003 has been re-weighted, using 2001 Census weights. For more information, see SHS user guide's "weighting" section. Comparisons between years should generally be made with re-weighted data. For more information see SHS user guide's "weighting" section at <http://www.statcan.ca/english/research/62F0026MIE/62F0026MIE2006001.pdf>.

Dollar Share of the Largest Spending Categories, Whitehorse, 1997 and 2005

In 1997, households in Whitehorse spent 20.0 cents of every dollar in their budgets on personal taxes. Shelter took 19.4 cents of every dollar, while 11.8 cents went to food and 11.1 cents went to transportation costs. Recreation took 6.9 cents out of every dollar spent, and 6.4 cents went to personal insurance payments and pension contributions. The remaining 24.4 cents were spent on household operation, household furnishings and equipment, clothing, health care, personal care, reading materials and other printed matter, education, tobacco products and alcoholic beverages, games of chance, gifts of money and other contributions, and other miscellaneous expenditures.

In 2005, 21 cents of every dollar in the budgets of Whitehorse households was spent on personal taxes. At 19.3 cents, shelter was the category next highest in spending, followed by transportation (14.6 cents) and food (11.3 cents). Recreation took 7.4 cents out of every dollar spent, and 5.7 cents went to personal insurance payments and pension contributions. The remaining 20.8 cents were spent on household operation, household furnishings and equipment, clothing, health care, personal care, reading materials, education, tobacco products and alcoholic beverages, games of chance, gifts of money and other contributions, and other miscellaneous expenditures.

Historical Spending Patterns of Whitehorse Households

The following table shows the spending patterns of Whitehorse households from 1972 to 2005. The figures for 1997, 1998, 1999, 2001, 2003 and 2005 are from the *Survey of Household Spending* (SHS); figures prior to 1997 are from *Family Expenditure in Canada* (FAMEX).

| as % of total current consumption | 48.4% | 51.3% | 49.2% | 44.8% | 46.4% | 49.5% | 49.2% | 48.4% | 46.5% | 46.5% | 47.4% |
| as % of total expenditures | 37.2% | 38.2% | 35.7% | 31.9% | 32.7% | 35.3% | 34.7% | 35.0% | 33.7% | 34.2% | 33.8% |

Notes: Prior to 1997, mortgage interest and interest on loans were reported in the "Shelter" and "Miscellaneous" categories. For 1997, regular mortgage payments on owned living quarters, including both principal and interest, are included under "Shelter". Loan payments and mortgage payments (including both principal and interest) on owned vacation homes and other properties are reported under "Money flow". When comparing time series, this affects the following expenditure categories: "Shelter", "Principal accommodation", "Owned living quarters", "Miscellaneous", "Total current consumption", and "Total expenditure".
Prior to 1997, "Games of chance" were included in the "Miscellaneous" category.

Notes:

⁽¹⁾ Based on full-year households only. Yukon estimates were designed to represent approximately 88% of the population in the territory.

F = Due to reliability concerns, the data in these tables have been replaced by an "F" for detailed spending categories reported by fewer than 30 households, since these would normally have coefficients of variation of 30% or more. This symbol should not be interpreted as zero. The expenditures are included in more reliable aggregates.

To calculate the average expenditure per person on an item, divide the average expenditure per household for that item by the household size (line #1100). For example, to find the average expenditure per person on food (lines 10000 - 15600):

$$\$7,350 / 2.43 = \$3,024.7 \text{ per person}$$

Detailed Expenditures*

End of total current consumption detailed items (table continues on page 16)

Average Expenditure per Household

The average expenditure per household is equal to the estimated total expenditures of all households divided by the estimated number of households. The average is based on all households in a column, including households that reported a zero value.

Percentage Reporting

The percentage reporting is the percentage of households that reported purchasing an item. These percentages cannot be added together to form sub-totals.

Average Expenditure per Household Reporting

Average expenditure per household reporting is calculated for those households that reported the expenditure, i.e. without zero values. Average expenditure per household reporting was calculated using unrounded data. Note also that expenditures in this column do not add to sub-totals. To calculate the average expenditure per household reporting the purchase of an item, divide the average household expenditure on that item by the corresponding percentage reporting, and then multiply by 100. For example, to find the average expenditure on pets by households that actually had pet expenses:

$$\frac{\text{Average household expenditure on pet expenses}}{\text{Percentage reporting}} \times 100 \quad \text{Example: } \frac{\$547 \times 100}{62.2} = \$879$$

Percentage of Total Expenditure

The percentage of total expenditure is calculated by expressing the average expenditure per household as a percentage of total expenditure. This statistic is also known as "budget share."

Notes:

(1) Based on full-year households only.

(2) Prior to 1997, mortgage interest and interest on loans were reported in the "Shelter" and "Miscellaneous" categories. For 1997, regular mortgage payments on owned living quarters (including both principal and interest) are included under "Shelter." Loan payments and mortgage payments (including both principal and interest) on owned vacation homes and other properties are reported under "Money flows." When comparing time series, this affects the following expenditure categories: "Shelter," "Principal accommodation," "Owned living quarters," "Miscellaneous," "Total current consumption," and "Total expenditure."

(3) Respondents sometimes report household electricity payments together with their water and sewage payments. This affects estimates of average household expenditure and percentage reporting for "Electricity" and "Water and sewage." The summary category "Water, fuel, and electricity" is unaffected.

(4) Values are presented here as a negative expenditure.

Historical comparisons with data from before 1999 should be made with revised data.

(5) Expenditures in this column do not add to sub-totals.

Historical comparisons with data from before 1999 should be made with revised data.

F = Due to reliability concerns, the data for detailed spending categories reported by fewer than 30 households have been replaced by an "F", since these would normally have coefficients of variation of 30% or more. This symbol should not be interpreted as zero. The expenditures are included in more reliable aggregates.

For information about survey methodology, variable definitions or comparisons with data from previous years, please consult the **User Guide for the Survey of Household Spending**. More information about the Survey of Household Spending and other expenditure surveys can be obtained free from Statistics Canada at <http://www.statcan.ca/bsolc/english/bsolc?catno=62F0026M2006001>.

Yukon estimates were designed to represent approximately 88% of the population in the territory.
