## Yukon Rent Survey Comparison of Average and Median Rent September 2007 to October 2017

This publication is a comparison of median and average rent statistics in Whitehorse, Watson Lake and Dawson for September 2007 to October 2017. **Prior data is available upon request.** These statistics are derived from the Yukon Rent Survey which, as of 2014, is conducted on a semi-annual basis in April and October. Prior to 2014, the survey was conducted on a quarterly basis and only included buildings with 3 or more rental units (4 or more rental units prior to 2012). Although the methodology of the 2014 survey includes buildings with 1 or more rental units, ([http://www.eco.gov.yk.ca/stats/pdf/rent\\_Oct17.pdf](http://www.eco.gov.yk.ca/stats/pdf/rent_Oct17.pdf)), the Yukon Bureau of Statistics continues to generate data for buildings with 3 or more rental units for historical comparisons. The tables below display this data.

**Median Rent** refers to the rent at the middle of the range with one-half of the rents being above the median (higher) and the other half below the median (lower). **Average Rent** refers to the sum of rents of all units divided by the total number of units.

### Whitehorse

x Data suppressed.

<sup>†</sup> Use caution when analyzing data due to high variance or a small number of rental units within the category.

(r) Data revised due to suppression rule changes.

<sup>1</sup> Data is not available for Watson Lake bachelor suites or 3+ bedroom units due to small numbers in survey.

<sup>2</sup> Data is not available for Dawson 2-bedroom or 3+ bedroom units due to small numbers in survey.

<sup>3</sup> Note that prior to 2012, buildings with less than four units were excluded from the survey. While the added 3-unit buildings comprise less than five percent of all units in the survey, figures prior to 2012 are not strictly comparable to subsequent numbers.
