About the Yukon Real Estate Survey

The Bureau of Statistics first undertook the Yukon Real Estate Survey in 1977. The survey is a census of all real estate transactions occurring anywhere in Yukon, with the exception of ‘not-at-arm’s-length’ transactions (‘not-at-arm’s-length’ transactions are those that do not reflect open market values). All single and multiple-residential property transactions, as well as commercial and industrial property sales are included.
