

Highlights

- Yukon's March median rent remained unchanged at \$850.
- Whitehorse's vacancy rate in March also remained unchanged at 1.5% .
- Whitehorse median rents were again highest in Porter Creek, at \$913/month.

The Yukon Rent Survey is a Yukon Bureau of Statistics survey that is carried out in the third month of every quarter (March/June/September/December) in Whitehorse, Watson Lake and Dawson City. This survey began in Yukon in 1977 and has continued to the present with only minor changes in survey design.

The survey, which consists of multi-unit rent housing, does not represent the entire rental housing market in Yukon. Buildings with less than three units (such as houses, suites and duplexes), subsidized or government-owned housing, and informal or illegal units are not included in the survey.

Note: In the fall of 2011, the Yukon Rent Survey coverage was expanded to include any building with three or more rental units. Prior to 2012, buildings with less than four units were excluded from the survey. While the added 3-unit buildings comprise less than five percent of all units in the survey, figures prior to 2012 are not strictly comparable to subsequent numbers. Additionally, in the process of this coverage expansion, a number of buildings with four or more units were also discovered. The addition of all of these buildings increased the total number of units in the survey by about 20%.

Whitehorse Median Rent and Vacancy Rate, Mar 1994 to Mar 2013

Whitehorse Rent Summary, March 2013

Number of units in survey.....	1,015
Number of vacant units	15
Vacancy rate for all units	1.5%
Median rent for all units.....	\$856

- The median rent in Whitehorse in March 1993 was \$650. Rents stayed relatively stable for the next 15 years, not reaching \$700 until the fall of 2007.
- Whitehorse's March 2013 median rent of \$856 is the highest on record, and 3.8% above the March 2012 figure of \$825.

Rents by Neighbourhood

- Median rents in Whitehorse have increased by 31.7% in the past ten years, rising to \$856 from \$650 in March 2003.
- Historically, Riverdale median rents have been the highest in Whitehorse. In March 2012, Porter Creek median rents surpassed Riverdale rents; however, in both June and September, rents were equal at \$900. In December 2012 and March 2013, Porter Creek again surpassed Riverdale reaching \$913.
- At the other end, in the last decade rents in Upper Whitehorse¹ have stayed at or near the bottom end of the scale. The March 2013 median rent of \$750 in Upper Whitehorse¹ was 12.4% lower than the Whitehorse Total median rent.

Median Rent by Whitehorse Subdivision, Mar '04 to Mar '13

¹ Upper Whitehorse includes Hillcrest, Takhini and Granger. This aggregation has been made due to small numbers of surveyed buildings in these subdivisions.

² Caution should be used when analysing data from Dawson City due to the small number of buildings in the community.

† Use caution when analyzing data due to a small number of rental units within the category.

Rents by Building Type

Note: Small Buildings¹ were added to the Yukon Rent Survey scope as of the March 2012.

- There are, by far, more rental units in Low-rise buildings than in any other type of building in the Yukon Rent Survey.
- In March 2013, median rents of units in Small Buildings with 3+ bedrooms continued to be highest-priced (\$1,525) of any building/size category; it was \$475, or 45.2% higher than the total Yukon All Types median for 3+ bedroom units (\$1,050).
- In the past ten years, comparing March 2004 to March 2013, the median rent has risen for: All Types by 30.8% ; Town/Row Housing by 44.8%; Store-top units by 35.5%; Low-rise units by 30.8%; and Four-plexes by 29.8%.

Yukon Median Rent by Building Type, Mar '04 to Mar '13

- Within units surveyed by the Yukon Rent Survey, there were very few vacancies outside of Low-rise buildings in March 2013.

¹ Small Building indicates three rental units in one building.

² Low-rise units are in buildings with five or more units.

³ Store-top units are residential units in buildings which primarily contain commercial space.

† Use caution when analyzing data due to a small number of rental units within the category.

[†]Use caution when analyzing data due to a small number of rental units within the category.

Inclusion of Utilities in Yukon Rent Prices

In addition to rent prices, the Yukon Rent Survey also asks whether utilities (heat, electricity, water* and/or parking) are included in the rent price.

The table below shows the number of units by type of building which include utilities in March of 2013.

While 90.0% of rental units surveyed included parking, only 62.3% included heat; 37.5% included electricity.

Store-top units were most likely to include heat and units in Small Buildings were most likely to include electricity;

Town/Row Housing units were least likely to include either.

Bachelor units were more likely to include heat and electricity than 1, 2 or 3+ bedroom units.

	All Types	Small Building ¹	Four-plex	Low-rise ²	Store-top ³	Town/Row Housing
	number of units with utility cost included in rent					
Heat	667	45	28	528	50	16
Electricity	402	33	12	307	34	16
Parking	964	54	44	732	51	83
All Units	1,071	60	44	818	66	83

* Although the rent survey does ask whether water is included in the rent price, it has typically been found to be included; therefore, water is not included in the above table.

¹ Small Building indicates three rental units in one building.

² Low-rise units are in buildings with five or more units.

³ Store-top units are residential units in buildings which primarily contain commercial space.
