

Highlights

- In October 2014, Whitehorse's median rent for units in buildings with 3 or more rental units was \$900 and the vacancy rate was 3.5%.
- Compared with September 2013, the median rent in Whitehorse for units in buildings with 3 or more rental units increased by \$25, or 2.9%, while the vacancy rate decreased 0.6 percentage points from 4.1% to 3.5%.
- For rental units in all types of buildings in Whitehorse, the median rent was \$950 and the vacancy rate was 6.4%.

The Yukon Rent Survey is a Yukon Bureau of Statistics (YBS) survey that has historically been conducted in the third month of every quarter (March, June, September and December) in Whitehorse, Watson Lake, Haines Junction and Dawson City. Beginning in 2014, the survey is being conducted on a semi-annual basis in April and October. In addition to the change in frequency, the survey methodology has been updated and the survey universe has been expanded to cover all types of buildings with rental units (single detached houses, townhouses/ row houses, duplexes, triplexes and fourplexes, condominiums, apartment buildings, store-top (commercial), and mobile homes). Subsidized or government-owned housing, and informal or illegal units remain excluded from the survey.

Despite the change in methodology, YBS will continue to generate median rent and vacancy rates for units in buildings with 3 or more rental units using comparable methodology to maintain the time series for historical comparisons. Pages 2 to 4 of this report include estimates based on the new methodology, while the analysis on the first page refers to buildings with 3 or more rental units. The graph below displays historical trends¹ of median rent and vacancy rates in Whitehorse.

For units in buildings with 3 or more rental units, the median rent increased from \$875 in September 2013 to \$900 in October 2014, an increase of \$25, or 2.9%.

The vacancy rate remained almost stable (around 1.5%) between December 2010 and June 2013, and then started increasing to reach 4.7% in April 2014. The vacancy rate for October 2014 was 3.5%.

¹ Figures prior to 2012 are provided as indicators of trends and are not strictly comparable to subsequent figures.

Note: Historically, the regular quarterly rent survey included buildings with 4 or more rental units. In 2012, the survey universe was expanded to include buildings with 3 or more rental units. From 2011 onwards, an additional Expanded Rent Survey of buildings with 2 or more dwelling units was conducted in September of each year. These surveys continued until the end of 2013.
