Monthly Retail Sales, Yukon, Jan 2009 to Dec 2013

### Retail Sales

The annual value of Yukon's retail sales increased each year since Yukon data became available in 1991, with the exception of three years: 2004 (-2.0%), 2009 (-1.4%) and 2013 (-2.6%).

The annual sum of retail sales in 2013 was \$652.3 million, a 2.6% decrease over the value of sales in 2012.

Retail sales show a marked seasonal pattern in Yukon with peaks in June through August and then again in December.

Yukon's total retail sales can, to some extent, be broken out by North American Industry Classification System (NAICS). Retail Sales by Industry in this publication are arranged according to their NAICS categories.

### About Retail Trade

Retail trade figures are estimates of the sum of retail sales in an area. Canada's sales levels are published on a monthly basis, both seasonally adjusted and not seasonally adjusted, for all provinces and territories and for three census metropolitan areas. The monthly results are released by Statistics Canada about 50 days after the end of the reference month.

This publication includes data from the monthly Retail Trade Survey. Statistics Canada also releases annual figures based on the annual Retail Trade Survey; however, those figures are not discussed in this publication as they are released two years after the reference period and are not directly comparable to the monthly figures.
