

YUKON BUREAU OF STATISTICS

SURVEY of EMPLOYMENT, PAYROLLS and HOURS 2009

1 About the Survey of Employment, Payrolls and Hours

Statistics Canada conducts two major monthly surveys on employment, wages and hours worked: Labour Force Survey (LFS) which is a household perspective and Survey of Employment, Payrolls and Hours (SEPH) which is an industry perspective.

The information source is the key distinction between the two surveys: LFS provides information on the employment characteristics of individuals based on a survey of households whereas SEPH provides information related to occupied jobs based on a census of payroll deductions administrative data received from Canada Revenue Agency in combination with Business Payroll Survey results.

Estimates from the respective surveys differ for conceptual and methodological reasons: degree of coverage of industries and the self-employed, treatment of multiple-job holders, and the survey reference period. The effects of these differences also vary by industry. Therefore, data produced from each of these surveys addresses different data users needs.

In summary, SEPH reflects the 'number of jobs' as opposed to 'number of workers' but excludes business enterprises primarily involved in agriculture, fishing and trapping, private household services, religious organizations and military personnel of defense services as well as all self-employed workers.

See <http://www.statcan.ca/cgi-bin/imdb/p2SV.pl?Function=getSurvey&SDDS=2612&lang=en&db=IMDB&dbg=f&adm=8&dis=2> for further information.

3 Weekly Earnings Yukon vs. Canada

Yukon weekly earnings (including overtime) have consistently been higher than the national average. In 2009, Yukon's average weekly earnings (\$891.97) were 8.3% higher than Canada's (\$823.53).

Comparing 2008 to 2009, Yukon earnings have increased by 4.1% and the Whitehorse consumer price index (CPI is not available for Yukon) has risen by 0.4%. This results in a 'real' increase of 3.7% in Yukon earnings. Canada's earnings have increased by 1.6% and the Canadian consumer price index has risen by 0.3% comparing 2008 to 2009. This results in a 'real' increase of 1.3% in Canadian earnings.

Comparing 1999 to 2009, Yukon earnings have increased \$159.50, or 21.8% while the Whitehorse consumer price index (CPI is not available for Yukon) has risen by 19.4%. During the same time period, Canada's earnings have increased \$183.06, or 28.6% while the Canadian consumer price index has risen by 23.1%.

8 Goods-Producing vs. Service-Producing Industries Employment

On average, from 1999 through 2008, *service-producing* industries have held the majority of employment at 15,170 employees or 90.9%. The remaining 9.1% or 1,512 employees, have been in the *goods-producing* industries sector. In 2009, *service-producing* industries have seen a slight proportion increase employing 91.4% of all *classified* businesses employees and *goods-producing* industries employing 8.6%, a slight decrease. Comparing 2008 to 2009, the number of *service-producing* industries workers has decreased by 49, or 0.3%, while the number of *goods-producing* industries workers has decreased by 290, or 15.1%.

Source: Statistics Canada, CANSIM 281-0024

GOODS-PRODUCING INDUSTRIES

Goods-producing industries include: forestry, logging and support; mining, quarrying, and oil & gas extraction; utilities; construction; and manufacturing. Of these five industry sectors, only construction data is available for Yukon.

9 Construction

Annual average employment in the *construction* sector has been project-driven throughout the period of 1999 to 2009, varying from a low of 616 employees in 2000 to a high of 1,062 in 2006. Annual average weekly earnings have also varied, from a low of \$719.44 in 2000 to a high of \$979.79 in 2007.

Comparing 2009 to 2008, the average number of *construction* employees has decreased by 38 employees, or 4.0%. Average weekly earnings have decreased by \$17.50, or 1.8%.

Source: Statistics Canada, CANSIM 281-0024; 0027

SERVICE-PRODUCING INDUSTRIES

Service-producing industries include: trade; transportation and warehousing; information and cultural industries; finance and insurance; real estate and rental and leasing; professional, scientific and technical services; management of companies and enterprises; administrative and support, waste management and remediation services; educational services; health care and social assistance; arts, entertainment and recreation; accommodation and food services; other services¹ (except public administration); and public administration.

10 Trade

Between 1999 and 2009, employment in the *trade* sector has varied by 1,016 employees, from a low of 1,909 in 2001 to a high of 2,925 in 2008. Within this sector in 2009, employment in *wholesale trade* averaged 344 employees, while *retail trade* accounted for 2,470 employees.

Earnings in the *trade* sector have remained very stable averaging \$543.83 per week for the period 1999 through 2009. Comparing 2009 to 2008, average weekly earnings have increased by \$34.07, or 6.3%, per week.

Source: Statistics Canada, CANSIM 281-0024; 0027

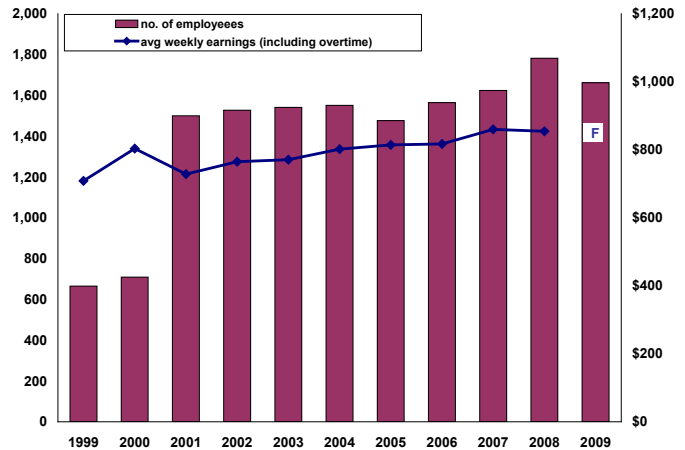

11 Transportation and warehousing

In 2001, there was a discontinuity in this industry series due to a model change and historic revisions. Therefore, data prior to this period is not comparable.

From 2001 to 2008, the *transportation and warehousing* sector has averaged 1,571 employees. In 2009, there were 1,662 employees, a decrease of 120 employees, or 6.7% compared to 2008.

Average weekly earnings have remained stable during the time frame 2001 through 2008, averaging \$801.46. (2009 data not available)

Source: Statistics Canada, CANSIM 281-0024; 0027

12 Information and cultural industries

Available data from the *information and cultural industries* sector for the period 1999 through 2009 indicates that employment averaged 532 ranging from a low of 434 employees (2009) to a high of 605 employees (1999).

Average weekly earnings have ranged from a low of \$768.77 (1999) to a high of \$972.81 (2007). 1999 through 2007 earnings have averaged \$884.71 weekly.

Source: Statistics Canada, CANSIM 281-0024; 0027

13 Finance and insurance

Available data from the *finance and insurance* employment sector over the period of 1999 through 2008 has averaged 285 employees. Comparing that average to the 2009 figure of 349, there has been an increase of 64 employees, or 22.4%. But comparing 2009 with 2008, there has been a decrease of 13 employees, or 3.6%. Weekly earnings in this sector ranged from \$808.23 in 2000 to \$1,052.33 in 2008, a variation of \$244.10, or 30.2%. From 1999 through 2008, earnings have averaged \$924.23 per week.

Source: Statistics Canada, CANSIM 281-0024; 0027

14 Admin and support, waste management and remediation services

The *administrative and support, waste management and remediation services* sector is another relatively small employer which has increased steadily from 175 employees in 2000 to 359 in 2009. The average number of employees from 1999 through 2009 was 237. Average weekly earnings have fluctuated from a low of \$509.63 in 1999 to a high of \$712.38 in 2009.

Comparing 2009 to 2008, earnings have increased by \$54.41, or 8.3%, while employment has increased by 66 jobs, or 22.5%

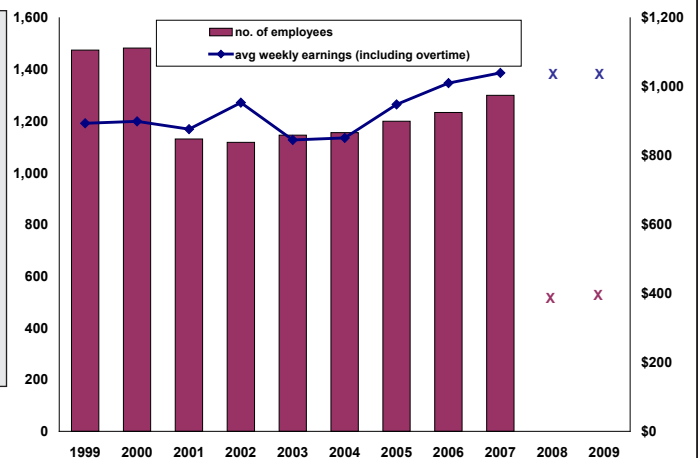

Source: Statistics Canada, CANSIM 281-0024; 0027

15 Educational services

The *educational services* sector has shown steady increases in both employment and earnings since 2003 (2008 and 2009 data is unavailable). 1999 through 2007 saw an employee low in 2002 of 1,118 employees and a high of 1,483 employees in 2000. During this same time period, and an average weekly earnings low was experienced in 2003 (\$845.45), and a high of \$1,040.14 average weekly earnings was experienced in 2007.

Source: Statistics Canada, CANSIM 281-0024; 0027

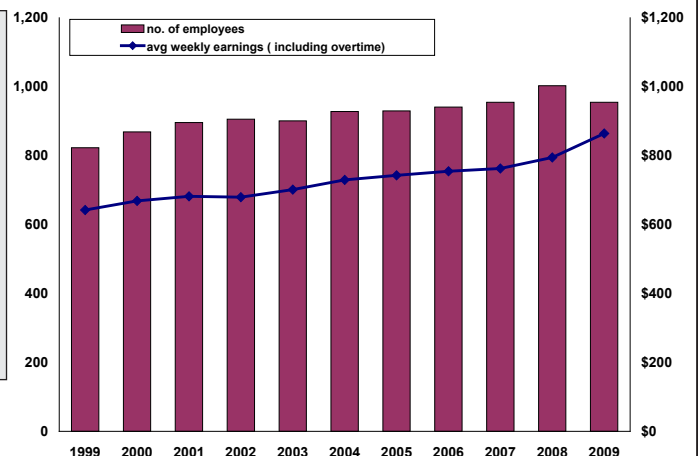

16 Health care and social assistance

The *health care and social assistance* sector has, for the most part, shown steady annual increases in both employment and average weekly earnings since 1999. Comparing 2009 figures to 1999, employment has increased by 132 employees, or 16.0%, and earnings have increased by \$221.95, or 34.5%.

Comparing 2009 to 2008, jobs have decreased by 48, or 4.8%, and average weekly earnings have increased by \$69.72, or 8.8%.

Source: Statistics Canada, CANSIM 281-0024; 0027

17 Accommodation and food services

Of the 1,493 employees in 2009 in the *accommodation and food services* sector, 865 were in *accommodation services* and 627 were in *food services and drinking places*. Total sector employment decreased by 154 employees when compared to 2008.

From 1999 through 2009, the *accommodation and food services* sector earnings have varied from \$336.17 in 1999 to \$440.73 in 2009. Comparing 2009 to 2008, average weekly earnings have increased by \$15.99 per week, or 3.8%.

Source: Statistics Canada, CANSIM 281-0024; 0027

18 Public administration

With the exception of 2002, the *public administration* employment sector has steadily increased from 1999 through 2009, with annual increases averaging 3.5%. Comparing 2009 to 2008, employment increased by 221 employees or 3.7%. In 2009, *public administration* included 492 federal gov't employees, 3,685 territorial, 629 municipal and 1,405 First Nations gov't. *Public administration* earnings have seen some variation over the last eleven years, ranging from \$840.43 in 2001, to the 2009 high of \$1,064.58. Comparing 2009 to 2008, average earnings have increased by \$64.92 per week or 6.5%.
